

# Smart Kids With Learning Difficulties

How parents and educators can identify and plan for smart kids with learning challenges so that they will reach their true potential

## Recommended for

- Parents
- Students
- Teachers
- Administrators
- Academic Coaches

## Sponsored by the Fairfax County Council of PTAs

Who are the 'twice-exceptional' learners? What are the challenges in serving these students? How do we identify the gifted individual? How can gifted instruction mesh with the special instruction, adaptations and accommodations required for students with special needs? What are the laws and regulations about 'twice-exceptional' learners?

These questions and more will be addressed.
